GENESIS · ECOMONDO 2026 · RIMINI, ITALY

Meet the GENESIS Delegation at Ecomondo

Twenty-one European organisations from nine industrial regions are coming to **Ecomondo in Rimini** with real challenges to solve and solutions to share in **circular economy, cleantech and digital transformation**. Book a meeting and turn a conversation on the show floor into a business case.

Wallonia BE · Lithuania LT · Poland PL · Latvia LV · Centro PT · Piedmont IT · North-West RO · Auvergne-Rhône-Alpes FR → **Rimini · Emilia-Romagna IT**

WHY MEET US

More than a visit. A matchmaking process.

GENESIS connects industrial regions across Europe to speed up the green transformation of their value chains. Ecomondo is one step of that process.

Prepared, qualified needs

Each delegate arrives with defined industrial challenges and interests, prepared with their regional cluster before the fair.

The right mix of profiles

Manufacturers, technology providers, a technology centre and regional clusters, each with a clear idea of who they want to meet.

A path after the handshake

Promising matches are followed up after Ecomondo with support to shape business cases, pilots and funding pathways.

HOW IT WORKS

From a meeting to a project

1
Tell us who you want to meet
Send us your organisation, what you offer or need, and the delegate organisations you are interested in.

2
Meet in Rimini
We arrange the meeting during the fair, at your stand or at an agreed point on the show floor.

3
Follow up with GENESIS
Where there is a match, the GENESIS partners help you move towards a business case, a pilot and the right funding route.

Challenge → **Solution** → **Meeting** → **Business case** → **Pilot** → **Funding pathway**

THE DELEGATION

Who you can meet

Wallonia
ICA
BE

Engineering & automation

Designs, builds, retrofits and maintains custom industrial equipment and automated production lines, turnkey from design to commissioning.

AT ECOMONDO, LOOKING FOR

Circular uses of industrial automation: equipment retrofitting, textile and fibre sorting and recycling, waste recovery, monitoring systems, and financing for circular models such as Equipment-as-a-Service.

WANTS TO MEET

Manufacturers in food, life sciences, aeronautics and defence, recycling operators, OEMs and integrators, and partners for joint equipment development, notably in Italy.

www.ica.be

Wallonia
e-biom
BE

Environmental DNA lab · university spin-off

University of Namur spin-off that turns environmental DNA (eDNA) and field ecology into reproducible biodiversity indicators, with its own eDNA laboratory. Supports CSRD / ESRS E4 reporting, project permits and impact monitoring. Also exhibiting on the Wallonia Pavilion.

AT ECOMONDO, LOOKING FOR

Monitoring pilots with industrial sites (baselines, post-implementation and effluent monitoring), and technology partners to combine eDNA with sensors, autonomous samplers, Earth observation and AI platforms.

WANTS TO MEET

Engineering and environmental consultancies needing an external eDNA lab; energy-intensive, waste-sorting, recycling and life-science companies; water utilities; R&D partners for tenders and EU calls.

e-biom.com

Wallonia
Altéris Technologies
BE

Technology provider

Designs and industrialises smart sensors, ultra-low-power electronics and connected IoT systems: energy harvesting, wireless communication, edge AI, gas and thermal sensing.

AT ECOMONDO, LOOKING FOR

Industrial challenges where autonomous connected sensing improves monitoring: water treatment, biomass and biomethanisation plants, soil remediation, pH and water-quality measurement.

WANTS TO MEET

Plant operators, environmental technology providers, waste and recycling operators, integrators, fibre and textile/plastic producers, and R&D partners for pilots.

alteristechnologies.com

Wallonia
Serviplast
BE

Manufacturer · social enterprise

Plastic injection moulding, overmoulding and technical assemblies for automotive, aerospace, rail and electrical customers, plus landscaping and outdoor works. A social enterprise employing people with disabilities.

AT ECOMONDO, LOOKING FOR

More recycled engineering polymers in technical parts, eco-design to cut material use, closed-loop recycling of production scrap, and nature-based water management for outdoor projects.

WANTS TO MEET

Recycled-polymer suppliers and compounders, testing labs, sorting and regranulation technology providers, eco-design and LCA experts, water-management solution developers.

www.serviplast.be

Lithuania
Pack in Green
LT

Bio-based materials developer

Bio-based composite for fibre-moulded food packaging: a drop-in material that replaces up to 40% of virgin wood pulp with agricultural by-products.

AT ECOMONDO, LOOKING FOR

Industrial fibre-moulding capacity for prototypes and validation, bio-based barrier coatings against water, grease and oil, and funding for scale-up.

WANTS TO MEET

Fibre-moulded and food-service packaging manufacturers, barrier-coating providers, R&D partners, funders and future technology licensees.

packingreen.eu

Poland
Laboratorium ExperTeam
PL

Contract manufacturer

R&D and high-precision contract injection moulding of technical polymer parts and moulds, with regrind recovery and closed-loop material management.

AT ECOMONDO, LOOKING FOR

Long-term European contract-manufacturing partnerships, and energy-efficient solutions for closed-loop plastics recycling and regrind recovery.

WANTS TO MEET

Industrial OEMs and buyers (electrical enclosures, automotive Tier 2/3, durables) in Germany, Italy, Benelux and Scandinavia, and suppliers of auxiliary equipment for circular manufacturing.

www.e-experteam.com

Białystok, Poland

SUNGRANT

PL

Energy engineering & integration

Renewable energy solutions for businesses: photovoltaics, energy storage and energy-efficiency projects that cut energy costs and emissions.

AT ECOMONDO, LOOKING FOR

Innovative PV, storage, energy-management and smart control technologies that stabilise and optimise the use of renewable energy.

WANTS TO MEET

Industrial companies, technology manufacturers, system integrators, distributors, research centres and investors in renewable energy projects.

sungrant.pl

Latvia

Laflora

LV

Bioeconomy manufacturer

Producer of professional growing media and peat-based substrates, developing the Kaigu Green Industrial Area around a 108.8 MW wind park.

AT ECOMONDO, LOOKING FOR

Partners to take Kaigu to pilot stage: hydrogen and sector coupling, CO_2 capture and use, heat recovery, peatland restoration, paludiculture, bio-based materials, integrated GHG, water and biodiversity monitoring.

WANTS TO MEET

Technology developers, industrial anchor users, engineering and research partners, investors, and distributors of bio-based products.

www.laflora.lv

Latvia

PALUS

LV

Forestry & natural capital

Long-term forest management in Latvia (planning, harvesting, reforestation), leading a PEFC certification group and developing forest-based carbon credit projects.

AT ECOMONDO, LOOKING FOR

Investment partners for Latvian and Baltic forest assets that combine timber growth with carbon credit generation.

WANTS TO MEET

Forestry and natural-capital funds, institutional investors, family offices, and buyers of forest carbon credits.

palus.lv

Centro Region

Grupo DURIT

PT

Advanced materials manufacturer

Specialist in advanced materials and tungsten carbide solutions, combining engineering and industrial manufacturing for many industrial sectors.

AT ECOMONDO, LOOKING FOR

Technology partnerships that support innovation, product quality and sustainable development in advanced materials and industrial manufacturing.

www.durit.pt

Centro Region

CENTIMFE

PT

Technology centre

Technology centre for the mould, tooling and plastics value chain: applied R&D, testing and engineering.

OFFERS

LCA/PEF and carbon footprint, eco-design, Digital Product Passports, additive manufacturing, process digitalisation.

AT ECOMONDO, LOOKING FOR

Plastics recycling and recycled or bio-based content, environmental data and DPP tools, low-carbon and resource-efficient manufacturing.

WANTS TO MEET

Industrial end-users, technology providers, RTOs, integrators and clusters for joint pilots, R&D projects and technical services.

www.centimfe.com

Piedmont

ZIRAK

IT

AI & Earth observation

Italian tech SME (since 2000, R&D lab in Portugal) in embedded software, IoT and applied AI. Analyses satellite, aerial and drone data to monitor land, water, waste sites and infrastructure, and builds LLM assistants for compliance, certification and ESG reporting.

AT ECOMONDO, LOOKING FOR

Customers for proof-of-concept projects with its ready-to-deploy Earth observation and LLM solutions, territories to host pilots, and partners for higher-resolution sensing data.

WANTS TO MEET

Waste management companies, water utilities and multiutilities, infrastructure operators, environmental consultancies, certification bodies, manufacturers with ESG obligations; EO data providers, research centres and public bodies.

Delegation hosts on site

Nine regional clusters and innovation organisations from the GENESIS partnership: they prepared the delegation, host the meetings and organise the follow-up.

Wallonia · BE
Pôle MecaTech

Wallonia's competitiveness cluster for mechanical engineering and advanced manufacturing.

FOCUS

Circular economy, cleantech and digital transformation of manufacturing.

www.polemecatech.be

Vilnius, Lithuania · LT
Sunrise Tech Park

Sunrise Valley Science and Technology Park: incubation, technology transfer and investment support for innovative companies.

FOCUS

Circular business models and cleantech: renewables, sustainable mobility and materials, waste and water.

ssmtp.lt

Białystok, Podlaskie · PL
EVOLUMA Industry Cluster

Industrial cluster of around 160 member companies and 25 strategic partners in mechanical engineering and industrial subcontracting.

FOCUS

Digital and smart solutions for industrial companies, industrial IoT, and financing for green-digital innovation.

www.evoluma.pl

Latvia · GENESIS coordinator · LV
Green Tech Cluster Latvia

Green and Smart Technology Cluster bringing together companies, education and research organisations active in green and smart technologies.

FOCUS

Mechanical engineering, ICT, energy-efficient buildings, efficient production and sustainable raw materials.

www.greentechlatvia.eu

Centro Region · PT
Pool-Net

Portuguese Tooling & Plastics Network, behind the "Engineering & Tooling from Portugal" brand.

FOCUS

Industrial circular economy, plastics recycling, decarbonisation, eco-design.

www.toolingportugal.com

Piedmont · IT
Fondazione Piemonte Innova

Public-private innovation foundation connecting companies, research and public authorities in Piedmont.

FOCUS

Circular and regenerative bioeconomy, earth observation and environmental monitoring.

www.piemonteinnova.it

Bologna, Emilia-Romagna · IT
Clust-ER MECH

Emilia-Romagna's regional cluster for mechatronics and automotive, uniting companies, research centres, universities and training providers.

FOCUS

Circular manufacturing and remanufacturing, recycling and material-recovery machinery, robotics for waste sorting and disassembly, resource and energy efficiency, green skills.

www.mech.clust-er.it

Cluj-Napoca, North-West · RO
Cluj IT Cluster

Romania's largest IT innovation ecosystem, with over 100 members: companies, universities, research institutes and catalyst organisations.

FOCUS

Digital solutions for the circular economy, Digital Product Passports, industrial IoT and data platforms for resource efficiency, funding for green-digital innovation.

www.clujit.ro

Auvergne-Rhône-Alpes · FR
CIMES

French competitiveness cluster for intelligent mechanical systems, engineering and smart manufacturing, with close to 300 members.

FOCUS

Intelligent mechanical systems, smart manufacturing and collaborative innovation projects.
