Administrateur Délégué

## Description

haulogy masters a very specific expertise in the Energy sector. haulogy is mainly active in the integration of complex IT systems exchanging information between market players (DGO's, suppliers, balance responsables...). haulogy's consultants bring their business knowledge to Suppliers and Distribution Grid Operators. haulogy has also developed an extended portfolio of application dedicated to DGO's (clearing house, settlement, grid-fee, workflows, asset management, metering) and to suppliers (market communication, billing, invoicing, contract/customer management...).
