Monsieur Oliviers Matthieu
CEO

Description

We help our industrial clients to build the future industry by focusing on their customers enhancing their experience, on their employees empowering them and on partners retributing them correctly. OMING is a industry 4.0 consulting firm that serves leading businesses, governments and non governmental organizations to create the future of the industry through digital & lean manufacturing techniques. We help our clients make lasting improvements to their performance and realize their most important goals. We want to build a firm uniquely equipped to this task.
