Monsieur Luc Langer  
Directeur Général

## Description

To ensure their growth, businesses develop new products, directly brought about by technological innovations, on an ongoing basis. These innovations are the fruit of long years of research led by the university sphere. Strengthened by its internationally-recognised expertise, the University of Mons has created MateriaNova, a unique-in-Europe research and development centre.

## Les marchés

Industrie, habitat et construction, santé et bien-être, énergie et environnement
