Smart Health Pilot: Summary of EU funding calls (RIV & i3)
5th of June 2023 15:00 – 16:00 CET
Marc Pattinson G.A.C. Group
Agenda

- Regional Innovation Valley (RIV)-EIE – 10 min
- Interregional Innovation Investments (I3) – 10 min
- Summary & Main differences – 10 min
- Open discussion with pilot members – 30 min
Summary of Regional Innovation Valley  RIV – EIE and I3 Interregional Innovation Investments

Most slides extracted from EISMEA Info Day from May 25

Both Calls will close on 17th October 17H Brussels Time
EU funding – RIV -
Implementing co-funded action plans for connected regional innovation valleys
HORIZON-EIE-2023-CONNECT-03-01

Objective

Strong innovation ecosystems across the EU, by accelerating the development and deployment of innovation, including deep tech innovation, to address the most burning challenges facing the EU

This action is intended to create connected REGIONAL INNOVATION VALLEYS across EU, involving regions with lower innovation performances and building on strategic areas of regional strength and specialization (in support of key EU priorities).

Successful applicant regions get the label.

REMINDER: Complete RIV expression of interest for individual regions
# Basic info

Who can apply? (1)

Eligibility conditions

• At least five (5) national or regional authorities from at least five (5) different Member States or Associated Countries, of which,
  ✓ at least two (2) are representing a 'moderate' or 'emerging' innovator region and
  ✓ at least one (1) is representing a 'strong' or 'innovation leader' innovator region
Who can apply? (2)

Target group (indicative)

- National and/or regional innovation authorities (min eligibility requirement)
  [shape innovation policies/programmes and able to provide 50% co-funding]

- Other relevant entities (research institutions, universities, companies, clusters, innovation intermediaries, etc.)

  ✓ as beneficiaries (able to provide 50% co-funding) - for HE eligible countries

  ✓ as associated partners - for HE non-eligible countries
Authorities in charge of public national, regional or local innovation policies & programmes in cooperation with private and Research & Innovation actors to implement multi-annual joint activities (action plans) towards innovation deployment / development, aimed at tackling challenges at EU, national, regional and local level.
Proposals should:

• Present **joint strategic visions, their commitment** and **agreed innovation action plans** (+details in annual work plans)

• Explain the **need** and the **reasons** for the selection of:
  - the **action plan**; should be **scalable, strong EU added value**
  - a strategic **thematic/technological area of cooperation**;
    (potential for growth/competitiveness; contribution to Joint or EU priorities and HE missions)

• Highlight how cooperation will improve the **EIE efficiency/performance**

• Describe the **activities, process and R&I assets** and ensure:
  a) **inclusiveness & diversity** (actors + territories)
  b) participation of **private** actors (implementation + co-funding)
  c) **complementarity and synergies** with funds, policies/strategies, programmes

**How** the consortium will implement these activities, clear **targets** (+indicators), **long term commitment (LoI)**
Include an ACTION PLAN

**CORE COLLABORATIVE ACTIVITIES**

- Coordination and support actions (CSA-type) - Horizontal actions
  e.g.  
  - structures/tools for networking and coordination
  - sharing/access to best practices, services, resources
  - join knowledge assets (methods/data/processes)
  - interconnection of innovation hubs
  - market analysis – access to new markets/finance
  - training/skills development
  - open infrastructures’ interconnection
  - supportive activities for scale up of innovative solutions
  - joint public procurement
  - social innovators / civil society integration

- Final agreement on joint action plan

- Preparation of setting up joint calls

**JOINT INTERREGIONAL PROJECTS (FSTP)**

(*at least 50% of the total budget – up to 600K€ per beneficiary*)

**Joint open calls:**

- At least 3 multi-beneficiary projects

- Similar to HE Innovation Action (IA) – type (TRL 6-8)
  Collaboration of R&I actors of participating regions

- Specific thematic/technological area (deep-tech)
  1. Reducing reliance on fossil fuels
  2. Increasing global food security
  3. Mastering the digital transformation (+ cybersecurity)
  4. Improving healthcare
  5. Achieving circularity

- Concrete / tangible outcomes by end of project

- Managed in a coordinated manner (portfolio / links)
How the applicants can cover the co-financing of 50% (COFUND)?

Entirely up to beneficiaries to choose the source of the financing (e.g., own resources, other funding, loans, etc...).
Can be covered by any other:
✓ public (national, regional or a combination of both) or
✓ private sources (e.g. participating companies, associations, etc.)

Is there a possibility of combining HE and Cohesion policy funds for the projects’ co-funding?
Yes, provided it complies with the Common Provisions Regulation (CPR) 2021-2027.
Relevant articles: CPR Article 73(2)(4), HE Article 15, also General Block Exception Regulation (GBER) Article 25c.

Some Key Points of Interest

A 50% co-funding rate ... Important to provide letters of commitment of funding with application.

Implication that match funding can come from ERDF ... tbc and other national and regional sources both public and private

Pay attention to consortium construction - mix of innovation leader and less innovative regions NB new Regional Innovation Scoreboard will be published in June

Possibility for full quadruple helix ecosystem partners to be included as partners – (clusters, research and innovation organisations ...) demonstrate how matched funding will be secured for each of them

Annual Action Plans are a key part of project as are FSTP’s

Perhaps look for partners that are currently delivering EIE CSA Preparatory actions projects of 2022 and 2023....

Multiple applications are possible ...
I3 – Interregional Innovation Investments
Policy background: I3 Work Programme 2023-2024

Building on Work Programme 2021-2022 - maintaining what worked, updates following expert and stakeholder feedback:

- **Continued & updated:** thematic priorities of twin transition and smart manufacturing carried over, however additional emphasis on burning challenges and link to the New European Innovation Agenda, RIV;

- **Continued:** focus on capacity building (new Call to come);

- **New:** S3 community of practice launched to support partnerships, umbrella for regional innovation stakeholders, linking ideas, facilitating consortia creation;

- **NEW:** strengthened cohesion policy dimension – first call results, stronger integration of the less developed regions into EU value chains, more partners from the less developed regions to be included in I3 consortia;

- **NEW:** same indicative project size for both strands;

- **NEW:** 100% rate for cascade funding;

- **NEW:** simplification – S3 support letter from the coordinator only, consortia members to outline link to S3 within the application

- Increased competitiveness and resilience of EU value chains, cohesion goals
- Regional Innovation Valleys
I3 Strands

**Strand 1** | Investment & advisory support for interregional innovation projects in shared smart specialisation areas

**Strand 2a** | Investment & advisory support for interregional innovation projects for the development of value chains in less developed regions

**Strand 2b** | Capacity building for the development of value chains in less developed regions
Burning challenges – New European Innovation Agenda

- Reducing the reliance on fossil fuels
- Increasing global food security
- Improving healthcare
- Mastering the digital transformation
- Achieving circularity
Eligible activities

VALUE CHAIN INVESTMENT PORTFOLIOS
Implementation of Investments “new to Europe” or “new to the application sector”.

Commercialisation activities bringing innovative ideas & products to the market (new to Europe, new to the sector)

Validation & testing in real environment (demonstration, innovation activities developed with end users)

Test beds & post prototyping activities

COLLABORATIVE JOINT INNOVATION ACTIVITIES in shared S3 areas

instrumental to bring innovative ideas and new products to the market
Key dimensions & KPIs

<table>
<thead>

<tr>
<td>Gender balance dimension</td>
<td>IPR dimension</td>
</tr>
</tbody>
</table>

Socio-economic benefits
Interregional Dimension

Q-helix partnerships on behalf of a regional/national ecosystems

Endorsed by competent bodies for Smart Specialisation

Different types of regions at the appropriate NUTS level

Minimum conditions in terms of ecosystems involved
(different for strand 1 and 2a)
Investment dimension

• 70% from the total eligible costs invested in SMEs
• Tangible and Intangible investments
• Investment justified by a market analysis or a business and investment plan
• Identified time to market or the TRL of departure (requirement TRL 6-9)
• Defined private/public investments leveraged by the project
• Multilevel architecture of the investment project (national, regional, European)
• Evidence based, expected territorial impact

PORTFOLIO APPROACH:

identification, within a specific thematic/technological area of cooperation, of a number of investment-ready sub-projects that address one or several challenges/bottlenecks faced by the consortium
Project budget and duration, funding rate

- **Project size**: € 2 - 10 million
- **Duration**: 18 - 36 months
- **Funding rate**: 70% for all cost categories & beneficiaries EXCEPT 100% for costs of FSTP
- **Total Funding**: € 31 million/strand 2023
Key Points of Interest

Funding of FSTP now at 100%

Look for strong linkages with S3/Community of Practice initiatives – focus on notion of value chains

Health Sector/Personalised medicine is identified as a priority

Consortium construction .. That allows for SMEs to be included along with their investment projects

Do not forget to check full set of info day slides and call details
Summary and Main Differences
